Site Description: FUDS - USACE property # B07MO0970 - DOD acquired 2.34 acres in 1956. The Air Force constructed a navigational radio beacon antenna and support utilities. The antenna was later removed and a ceilometer system was installed. The site was reported excess in 1979 and conveyed to the City of Kansas City, Missouri in 1985. One building remains on the site in 2000, probably used for housing a generator. Several concrete slabs are still on site, with various types of wiring buried.
